Rice Day Rescheduled

Clarenville, NL – Two Villages announces the postponement of Rice Day, scheduled for November 18, 2009. Schools and thousands of children from throughout the province have been planning for the event.

On Rice Day students throughout the province exchange their lunch money for a simple bowl of rice, linking them with half of the world's population who rely on the food staple. "We recognize that schools and students are grappling with H1N1 at this time and we ask that planned Rice Day activities be rescheduled to January, 2010" says Ian Davidson, school liaison with Two Villages.

The upcoming project is the fifth for the not-for-profit, Clarenville-based organization Two Villages. Two Villages has partnered with USC Canada to help redevelop farming communities in Timor Leste.
